The following is a concise statement of relevance of the non-English language documents.

1. WO 87/05500 - An abstract of the disclosure of this document can be found in the English language Abstract on the front of this document herewith. Further, U.S. Patent No. 4,859,459, submitted herewith, appears to be a counterpart to this PCT publication.

2. EP 0 636 359 - An abstract of the disclosure of this document can be found in the English language Derwent Abstract submitted herewith.

The listed documents were cited in an International Search Report in PCT/US02/21848, which is a counterpart to the present application. A copy of this search report is also attached.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
